Sports Timing System

Wireless Remote Keypad & Raceclock Receiver

WR100 Wireless
Raceclock Receiver

500' Range

WK100 Wireless Keypad

- Plug-and-Play replacement of the “wired” RK100 Remote Keypad.
 - Receiver unit plugs into Raceclock remote control port with one receiver for each Raceclock being controled.
 - Provides remote control of the Raceclock with all functions identical to the keypad on the side of the clock.
- Wireless connectivity up to 500 ft or more depending on obstacles.
- Each Wireless Keypad transmits a unique ID code that is assigned to the Receiver.
- High resolution timing correction logic delivers the same timing accuracy as wired RK100 Remote Control.

WR100 Wireless Receiver

\$195.00

WK100 Wireless Keypad

\$250.00
